Sir:

Further to the Information Disclosure Statement (IDS) of August 25, 2006, attached is Form PTO-1449 listing the enclosed non-U.S. patent document. It was first cited in a communication from a foreign patent office in a counterpart foreign application not more than three months ago (i.e., February 10, 2009). The Canadian Office Action citing the document is also enclosed and listed.

This IDS is intended to be in full compliance with the rules, but should the Examiner find any part of its required content to have been omitted, prompt notice to that effect is earnestly solicited, along with additional time under 37 CFR § 1.97(f), to enable Applicants to comply fully. In particular, if any of the listed documents are missing or incomplete, please contact the undersigned who will provide another copy.

As provided by 37 CFR §§ 1.97(g) and (h), no inference should be made that this information and the listed references are prior art merely because they have been submitted for consideration. Further, no representation is being made that a search has been conducted or that this statement encompasses all possible material information.

Consideration of the foregoing and enclosures, as well as return of an initialed copy of Form PTO-1449 per M.P.E.P. § 609 to confirm consideration of the listed documents, are earnestly solicited. The Examiner is invited to contact the undersigned if any further information is needed.

Respectfully submitted,

NIXON & VANDERHYE P.C.
